The park features two football and soccer fields that can also be used for baseball, softball, lacrosse, and other sports—as well as five tennis courts, open recreational space, and an area with equipment for children with disabilities that will be dedicated to graduate Victoria McGrath, who was injured in the 2013 marathon bombing and then died in a tragic accident overseas in 2016. Covid 19 Assistance to the City of Boston.	In April, Northeastern opened its West Village residence hall on the Boston campus to police and emergency medical service providers to help address the increased need for safe places to stay for first responders on the front lines of the COVID-19 pandemic. During the early months of the pandemic, Northeastern provided 135 rooms containing beds, private bathrooms, and kitchenettes for first responders living with someone who might be at higher risk for severe illness from COVID-19. During the pandemic, the U.S. experienced serious declines in blood donations, leaving the nation's blood supply at critically low levels. One reason was that many places where the American Red Cross usually held blood drives were closed because of the pandemic. To meet this urgent need, Northeastern hosted three blood drives in collaboration with the Red Cross at Matthews Arena. Northeastern also partnered with the City of Boston to convert Matthews Arena into a polling place for the community to vote for both elections in 2020. Matthews Arena was used for three days to unloaded and open, and disinfect art and school supplies sent to the city of Boston from Edvestors.	\$182,300	In Kind		City of Boston	City of Boston and Northeastern University	City-Wide	Good Neighbor Activity	Various
