

COMMUNITY BENEFITS RECAP

Please note that the deadline for Community Benefits is April 1, 2022. There are also two additional data points we would like to collect this year (see footnotes for more info).

Once completed, please rename the document to reflect the name of your organization. Email an excel and PDF version to PILOTprogram@boston.gov.

INSTITUTION NAME:		Boston Children's Hospital		FINANCIAL YEAR:		2021			
Program Name	Brief Program Description	Amount (\$)	Cash, In-Kind, or Both ¹	1-time or Ongoing ²	Who is Served ³	Program Initiator ⁴	City-wide or Neighborhoods Served ⁵	Community Benefit Category ⁶	Partners
Workforce Development	Workforce Development at Boston Children's Hospital strives to bridge community and incumbent talent to build diverse teams that provide the best service and care for patient families. With equity, diversity, and inclusion at the core of our work, we partner with numerous community based organizations to recruit community talent to job, internship, and career exploration opportunities. Once a community member joins Boston Children's as an employee, we have extensive offerings to support as someone looks to build their career within our enterprise.	\$401,849	Cash	Ongoing Since 2007	• COACH High School and College Internship Program (Communities, Opportunities, and Advancement at Children's Hospital): Provides summer and school year employment opportunities to Boston-area high school students (and college students who are alumni of the high	Boston Children's Hospital	City-wide	Employment	Youth Program Partners: Boston Public Schools Boston Public Health AIDS Action Committee of Massachusetts Boston Pediatric and Family AIDS Project, Dimock Center
Boston HAPPENS	Boston HAPPENS (HIV Adolescent Provider & Peer Education Network for Services) provides accessible, confidential HIV, STD and Hepatitis screening, risk reduction counseling and supported referrals to adolescents and young adults. We offer HIV medical case management, primary care, HIV specialty care, nutrition care and HIV risk reduction. We serve as a referral resource for school nurses, community pediatric and adolescent practices and community based programs. We provide onsite testing at colleges, alternative schools and youth-focused organizations, mobile medical vans and outreach events. The program trains and supports providers about routine HIV and STD screening, sexual health, nPEP and PrEP and	\$286,568	Cash	Ongoing Since 1993	Boston youth and young adults, 12-24 years of age. Community Asthma Initiative (CAI)	Community Asthma Initiative (CAI) has helped to improve the health and lives of 2,424 Boston children with asthma. Through a comprehensive asthma home visiting program, CAI provides case management, home visits, offers education to caregivers and patients, distributes asthma control supplies, connects families to resources and increases access through advocacy. In FY21, CAI cared for 96 new patients with 70 completing at least one home visit (73%). Boston Children's staff completed 120 visits: 117 by Community Health Workers and 3 by the Nurse Practitioner. CAI surpassed its quality goal, reducing the percent of patients with any hospitalizations by 8.1% and any emergency department visits since 2019.	\$524,456	Cash	Ongoing Since 2005	Boston children 2-18 years of age (mean 7.4 years). CAI Education and Outreach	Since 2019, the Community Asthma Initiative (CAI) has helped to improve the health and lives of 2,424 mostly low-income Boston children of color with asthma. Through a comprehensive asthma home visiting program, CAI provides case management, home visits, offers education to caregivers and patients, distributes asthma control supplies, connects families to resources and increases access through advocacy. In FY21, CAI provided education and training for 111 community meetings with 1,174 participants, 4 community events with 470 participants, 18 trainings/talks with 24 participants, and 4 insurance/policy related meetings with 107 participants.	\$28,543	Cash	Ongoing Since 2006	Boston children 2-18 years of age (mean 7.4 years). Fitness in the City (FIC) Operations	Fitness in the City (FIC) program provides a community-based approach to weight management and reducing health disparities at 11 Boston-based community health centers including Boston Children's at Martha Eliot Health Center. Through capacity building and financial support, FIC enables health centers to administer case management services to children who have a body mass index (BMI) at or above the 85th percentile and their families including culturally appropriate nutritional education and physical activities. In FY21, Fitness in the City nearly met its annual intake target, with 463 completed intakes (target 525). Follow-up metrics were met: 261 participants completed 3 month follow-up visits and 226 completed 12	\$62,569	Cash	Ongoing Since 2005	Boston children who are overweight or obese, ages 3-18 (mean 10.9 years). Supporting Access to Preventative Pediatric Care for Underserved Populations	Boston Children's Hospital has relationships and strong partnerships focused on reducing health disparities with 12 Boston community health centers, 9 of whom are affiliated. Through these partnerships, Boston Children's improves access to care for underserved populations, helps efforts to better manage chronic diseases and supports prevention and treatment services that improve the health of Boston children, youth, and families. Boston Children's supports its community health center partners with funding, training, technical assistance, and direct services. In FY21, we continued to connect our network of 11 community health centers with local nutrition and physical activity resources such as gyms, group fitness	\$948,500	Cash	Ongoing Since 2001	29,042 pediatric patients served at 9 affiliated community health centers: 32% LatinX (any race/ethnicity), 22% Black, 6% White, 11% Asian, 10% Other, 20% Unknown. Boston Children's Hospital Neighborhood Partnerships (BCHNP)	Boston Children's Hospital Neighborhood Partnerships (BCHNP) is the community behavioral health program in the Department of Psychiatry at Boston Children's Hospital. Established in 2002, BCHNP partners with Boston schools to provide a comprehensive array of social, emotional and behavioral health services and supports to students, families, educators and school communities. In the 2020-2021 school year, BCHNP's School-Based Program implemented clinical, early intervention, and prevention/promotion services with 1,469 students across seven elementary, K8, middle, and high schools.	\$1,680,301	Cash	Ongoing Since 2002	Students at participating BPS schools. BCHNP students are representative of the schools' neighborhoods (Dorchester, Mattapan, Roxbury, South Boston, West Roxbury, Hyde Park, Roslindale). Boston Public Schools Nurse Training	During the 2020-2021 school year, Boston Children's Global Health team worked with BPS nursing leadership to facilitate a year-long intervention for BPS nurses in an effort to reopen schools safely. Boston Children's clinicians engaged six cohorts of 10-20 nurses in weekly small group sessions as well as monthly webinars for 100+ nurses on topics related to COVID-19 such as vaccination, use of PPE, pool testing, and management of suspected cases.	\$4,940	In kind	Ongoing	Boston Public School nurses	Boston Children's Hospital	City-wide	Education	None
Boston Centers for Youth and Families	BCYF works in partnership with Boston Housing Authority, Jamaica Plain Tree of Life, the Mildred C. Hailey Tenant Task Force, and Boston Children's Hospital to implement the Mildred C. Hailey Youth Drop in Center at the Mildred C. Hailey Apartments for youth ages 12-19. Programming includes homework help, workshops, and outdoor activities with partners. In FY21, the Youth Drop in Center continued operations, holding most activities outside while providing daily snacks and meals, continued field trips and activities (museums, hiking, etc.) for 20 young people.	\$50,000	Cash	Ongoing since 2017	Boston youth and young adults, 12-24 years of age. Boston Public Health Commission	Community based training initiative (CBTI): The goal of CBTI is to prevent and address violence by strengthening trauma informed and equitable approaches among providers and systems serving children, adults and families in Boston and beyond. This is accomplished by providing training in workforce development and organizational capacity building. In FY21, the two CBTI program managers supported with BCH PILOT funds coordinated the delivery of 94 trauma, resiliency and racial equity training sessions to 563 providers. 80% of the trainees were from youth-serving, violence prevention and healthcare organizations, the other 20% represented housing, early education and care, mental/behavioral health	\$411,048	Cash	Ongoing	NTTN: Providers and residents, mental health clinicians, early childcare and education systems, families impacted by violence CBTI: Youth-serving organizations, youth, healthcare, housing service providers, early BHS: Boston students Pre-K to 21. In FY21, BHS served 31,466 students of which 9% were Asian, 35% Black, 40% Hispanic, 16% White, and 0% Native American.
