

COMMUNITY BENEFITS RECAP

Please note that the deadline for Community Benefits is April 1, 2023. There are also two additional data points we would like to collect this year (see footnotes for more info).

Once completed, please rename the document to reflect the name of your organization. Email an excel and PDF version to sharon.butler-charles@boston.gov.

BAC Green Alley	The permeable pavement in Alley #444, located between the College's 951 Boylston Street building and 320 Newbury Street building, allows water to percolate into the earth rather than through the storm drains. Both permeable asphalt and permeable unit paver systems were installed over a large common gravel bed designed to collect, store, and drain rain water from the alley surfaces and two BAC rooftops. Below ground, designers and construction managers on the project had to work around many existing utilities, including the infrastructure of the recently installed geothermal wells. The BAC's Green Alley project demonstrates that immediate and long-term environmental challenges facing the City of Boston can be met through creative partnerships between experts and institutions.	\$ 25,000	Cash	Ongoing	BAC students, staff, faculty, community members, prospective students, design professionals and the public	Boston Architectural College	US Department of Energy, Massachusetts Department of Environmental Protection, and a grant from the City of Boston		
BAC Green Alley - Storm and Ground Water Monitoring	The BAC monitors and publishes real time data of the ground and storm water levels in the green alley.
